

LouiEriksson::Graphics  
::Texture::Parameters  
::Format::Format

```
graph LR; A["LouiEriksson::Graphics  
::Texture::Parameters  
::Format::Format"] --> B["LouiEriksson::Graphics  
::Texture::GetFormatData"]
```

A diagram showing a call from a class to a method. On the left, a gray box contains the text 'LouiEriksson::Graphics', '::Texture::Parameters', and '::Format::Format'. A blue arrow points from this box to a white box on the right. The white box contains the text 'LouiEriksson::Graphics' and '::Texture::GetFormatData'.
